

**Academic Orthopaedic Knee Sport Medicine Surgeon
Department of Surgery, Division of Orthopaedic Surgery
Western University
London Health Sciences Centre (LHSC), St. Joseph's Health Care London (SJHC)**

Posting Date: October 3, 2024

Position Profile: A Full-time Limited Term Clinical Academic appointment at the rank of Assistant Professor or Associate Professor; or a Continuing Clinical Academic appointment at the rank of Associate Professor or Full Professor; depending upon experience and qualifications at the time of appointment. The Division of Orthopaedic Surgery is affiliated with London Health Sciences Centre and St. Joseph's Health Care London and is presently comprised of 32 surgeons with busy clinical practices. The Division has a strong clinical research interest and is an accredited Royal College training program. This position is a collaborative position between Western University and the Fowler Kennedy Sports Medicine Clinic.

Academic and Clinical Expectations: The successful candidate must have a strong interest in the comprehensive treatment of knee injuries, including cartilage injuries, patellofemoral instability and multi-ligament knee injuries. The candidate will also be responsible for coverage at London Health Sciences Centre, University Hospital. The successful candidate must be interested in pursuing a strong academic career and will be expected to participate actively in the Division's academic, research and education initiatives including teaching and supervision of undergraduate students, postgraduate trainees and fellows. Applicants considered at the rank of Associate or Full Professor must have demonstrated the ability to publish in the highest quality academic and subspecialty outlets and be a recognized expert in their field of research.

Qualifications: The successful candidate must have an MD or equivalent as well as an advanced degree, have completed an accredited orthopaedic surgery training program and completed additional fellowship training concentrated in the field of sports medicine. The successful candidate must have demonstrated d
