procedural sedation in the Out of OR setting each year. Operations range from craniofacial reconstruction, scoliosis repair, general orthopedics, and trauma, to ENT, urology and general surgery procedures. We recently started live donor renal transplant program at Victoria site. Pediatric anesthesia support is provided by a subspecialty call group that is always available for advice and assistance. We have about 15 anesthesiologists practice pediatric anesthesia of which 10 are fellowship trained. In particular, the CSTAR (Canadian Surgical Technologies & Advanced Robotics) research and training centre at the LHSC and Western University is a national centre of excellence for advanced surgical training and research in minimally invasive surgery procedures such as cardiac, thoracic, urology, general and fetal surgery. This provides an excellent training facility and program for anesthesia in the latest and most advanced minimally invasive surgery management.

The Anesthesia Department provides teaching and training to undergraduate and postgraduate trainees in anesthesia and allied health care fields both at Western University and Fanshawe College. The Department is well known for its clinical and research excellence in cardiac anesthesia, neuroanesthesia, transplantation, critical care and pain medicine.
