

The combined effort of graduate students and their advisors/supervisors is essential if we are to achieve excellence in graduate education. Because conflict and /or tension can arise in situations

## OVERALL ROLES & RESPONSIBILITIES: Student:

It is my responsibility to:

7. learn skills and approaches to thinking about problems that are suitable for an advanced degree
8. exhibit independent judgment, academic rigor, and intellectual honesty
9. devote full time to scholarly studies and make timely progress towards completion of degree  
(There is/is not a policy on a specific number of hours to spend carrying out research, but regular involvement in research activities is required.)
10. meet regularly/weekly/monthly

**TIMELINES:**

23. every effort should be made to complete research, course work and/or thesis within the (1-year, 2- year/4-year) period that is typical for specific degree program

## INTELLECTUAL PROPERTY:

49. original research is carried out by students; the intellectual property component may
