13. How to Be Successful in this Class:

Students enrolled in this class should understand the level of autonomy and self-discipline required to be successful.

1. **Invest in a day planner** or application to keep track of your courses. Populate all your deadlines at the start of the term and schedule your time throughout the course.
2. Make it a **daily habit to log onto OWL** to ensure you have seen everything posted to help you succeed in this class.
3. **Follow weekly checklists** created on OWL or create your own to help you stay on track.
4. **Take notes** as you go through the lesson material. Keeping handwritten notes or even notes on a regular Word document will help you learn more effectively than just reading or watching the videos.
5. **Connect with others**. Try forming an online study group and try meeting on a weekly basis for study and peer support.
6. **Do not be afraid to ask questions**. If you are struggling with a topic, check the online discussion boards or contact your instructor(s) and or teaching assistant(s).
7. **Reward yourself** for successes. It seems easier to motivate ourselves knowing that there is something waiting for us at the end of the task.
8. **Keep a weekly routine**. Consistent wake-up times, regular exercise, healthy eating habits, and a regular bedtime will help you to balance your academics, and your own personal health and well-being.
