LEARNING ENVIRONMENT (RELEVANT TO CLASSES)

This course experience will function according to the assumption that successful learning happens in environments where learning is co-created by the instructor and the students.

As the instructor, I will endeavour to provide students with course experiences that are optimally engaging, motivating, and interesting. In return, I will expect students to attend all classes, and contribute to the collaborative nature of the learning experience through their active participation in discussions, by completing the assigned readings, and by offering constructive feedback as will be deemed useful to the overall learning experience.

Ideally, we will co-create a learning environment that welcomes and encourages group dialogues that are dynamic, passionate, and open-minded. That is, a learning experience that is vital and engaging for all. In this regard, it is my hope that we will come together in the spirit of community and shared interest to co-create a learning environment that is supported by civility and mutual respect. In doing so, we will set the stage for a healthy and stimulating intellectual forum.

Finally, if you are having problems with any aspect of the course, please contact me. I'm genuinely committed to your learning experience, I'm approachable, and I welcome your comments, your constructive criticisms and, of course, your questions.
