Some online tests are metered and cannot be interrupted, so make sure to have a quiet environment.

Turn your phone off, as well as all messaging or email software that could distract you with noises or pop-up windows.

To avoid possible software glitches, before taking a test online, it is advisable to restart your computer and launch only one browser application, with only one window open, and leave no other programs running in the background.

At the end, make sure you save all your answers before you submit for grading.
