» Health Care Spending Account (HCSA)

A Health Care Spending Account (HCSA) complements your group benefit plan. The HCSA can be used to pay for many medical and/or dental expenses that are not covered or only partially covered by your Health Care and Dental plans or provincial health care plans. Claims can be made only if you have chosen to allocate flexible benefit credits to this account. The reimbursement of expenses through the HCSA is non-taxable to you which means that your money goes a lot further than if you paid the same expenses out of pocket. The HCSA not only provides you with the flexibility when budgeting to meet the specific health care needs of you and your dependents, but also gives you more control over funding of your health care expenses.

Eligible expenses means health care and dental care expenses which qualify as a medical expense under section 118.2(2) of the Canadian Income Tax Act and Regulation 5700, as amended from time to time, or health care and dental care expenses the insurance provider deems as an eligible medical expense under a private health services plan or a group accident and sickness plan, provided eligible expenses are:

- x Medically necessary for the treatment of an illness or injury of a covered person
- x Incurred for the care of the person while covered under the HCSA
- x Not covered under a provincial plan or any other governmentsponsored programs; and
- x Not prohibited by law from being covered

Western establishes a HCSA with the insurance provider at the beginning of each calendar year. The insurance provider will pay benefits for eligible expenses incurred by you and any individual who meets CRA definition of financially dependent, which may include individuals not covered under Western's Health Care and Dental Plan (e.g. eldercare). The amount of credits remaining in your HCSA at any given time will be your account balance.

If you have a balance in the HCSA at the end of the calendar year, that amount will be carried forward to the next calendar year. Reimbursement will be first paid from the earlier year's credits. At the end of the second calendar year, tax laws require that any credits remaining from the previous year be forfeited.

As Canada Revenue Agency (CRA) decides what expenses are eligible under the HCSA, it is recommended that you access the CRA published list of expenses for the most up to date information. You may access this list by visiting the CRA eligible medical expense website.

An eligible expense is allocated to the plan year in which it is incurred. An eligible expense is incurred on the date the services are received or on the date supplies are purchased or rented. Therefore, eligible expenses incurred in one plan year may not be claimed against the plan credits allocated for the next plan year.

Eligible expenses may include, but are not limited to the following expenses:

- x Drugs and medicines
- x Vision care
- x Deductibles and coinsurance amounts under both the Health Care and Dental plans and under any other medical or dental plans
- x Practitioner services fees for services of:
 - o Acupuncturists
 - o Chiropractors
 - o Chiropodists/Podiatrists
 - Naturopaths
 - o Nurses
 - o Optometrists
 - Osteopaths
 - o Physiotherapists
 - o Practical nurses
