faculty members that the Thesis Stream enrolment be increased by (i) removing the Registered Dietitian admission requirement for the Thesis Stream, and (ii) providing a part-time Thesis Stream degree option for practicing Registered Dietitians. The External Consultants noted that the program has been innovative in encouraging international students by creating an undergraduate diploma to prepare students for the MScFN Thesis Stream.

The External Consultants found that the Thesis Stream should be expanded from 5 to 6 terms to accommodate the level of research mentorship and quality and scale of the students' research projects. They felt that the course requirements are Registered I

The External Consultants found that the funding available to students in the Thesis Stream is inadequate and a potential challenge to recruitment. They recommended that funding, both direct and indirect (scholarship), for Thesis Stream students be immediately reviewed.

Overall, the program is viewed as being of high quality. The Thesis Stream should be re-visited to ensure its long-term sustainability.

- The program addresses an important health, and health-care, need in Canada.
 - The curriculum is varied and innovative, blending theoretical and applied components.
 - The students are of high quality.
 - The faculty members are high achieving and fully committed to the program.
-
- The learning outcomes for the Internship Stream and Thesis Stream should be more clearly differentiated.
