

As part of the protocols outlined in Western's Institutional Quality Assurance Process (IQAP), to facilitate the continuous improvement of academic programs between review cycles, in connection with the Final Assessment Report (FAR) and Implementation Plan, a monitoring process will include an Ongoing Improvement Progress Report. The outcomes of this report will be considered as part of the program's next cyclical review.

The purpose of this report is to provide an update on the operationalization of the implementation plan following a Cyclical Program Review (or the review of a New Program). This should include a brief summary of actions taken by the Program and the Dean's Office since the completion of the review (usually about three years), as well as an update on the stage of implementation for all applicable items. These include:

- whether the action item(s) are in progress, complete or no longer applicable (with a brief explanation);
- the timelines of each item and how they are progressing or expected to progress, particularly if they are diverting from original timelines in the FAR and Implementation Plan, and;
- a short description of any other program developments and improvements that have taken place following the review.
- For new programs only, an evaluation of the initial administration and resourcing of the program.

The following report template has been created for the program to report on progress made regarding recommendations presented in the Implementation Plan, and any other relevant program developments and enhancements.

- The program will complete the template and submit it to the faculty Dean's Office for sign-off.
- The program will then submit the completed Ongoing Improvement and Progress Report to the Office of Academic Quality and Enhancement (OAQE). Reports are due by June 30.
 - The OAQE will present all Ongoing Improvement and Progress Reports to SUPR-U/G for approval. Approvals, or any follow-up questions/concerns, will be communicated to the program and Dean's Office by the OAQE.
 - It should be noted that as per the requirements of the province's Quality Council, progress reports will be posted on the [reports page](#) of the OAQE website.

Incorporate coverage of
indigenous rights

The HRS program remains a very new one,

<i>Adequacy of Administrative Support</i>	The HRS program shares administrative support with the History program at King's. These resources are adequate.
<i>Adequacy of Resource Allocation (e.g., staffing, financial)</i>	The HRS program has no immediate requirement for internal staffing of its own. Financial resources are adequate for the size and scale of the program for the time being.
	The HRS program will require a replacement hire for a dedicated scholar of human rights.
